Experience

Twilio - Product Design Intern
May 2021 - August 2021

Collaborated with product management to solve developer pain points on SendGrid's SSO by scoping and designing solutions iteratively. Coordinated need-gathering and concept-testing sessions with engineers.

Reach Medic - UX Designer
May 2021 - August 2021

Developed the design system by building an accessible library of components and patterns while establishing comprehensive design guidelines and other creative assets.

University of Michigan - UX Researcher
February 2020 - August 2020

Conducted 20+ semi-structured virtual interviews and surveyed 100+ participants, in addition to analyzing data through qualitative coding for understanding mental health coping mechanisms during the pandemic.

Extended Reality and Games Lab - UX Researcher
August 2018 – May 2019

Analyzed user interactions on virtual objects linked with physical real-world extensions through mixed methodology techniques.

Education

University of Michigan
December 2021
M.S. Information - HCI

University of Arizona
May 2019
B.S. Information Science & Tech
